# GRAY HAIR

Lady Gives Simple Home Recipe That She Used to Darken Her Gray Hair.

For years I tried to restore my gray hair to its natural color with the prepared dyes and stains, but none of them have satisfaction and they were all expensive. I finally ran onto a simple supper which I mixed at home that gives wenderful results. I gave the recipe, which is as follows, to a number of my thinds, and they are all delighted with it. To 7 ounces of water add a small box of Barbo Compound, I ounce of hay raim and 1/2 ounce of glycerine. Use every other day until the hair becomes the required shade, then every two weeks. It will not only darken the gray hair but removes dandruff and scaip hamors, and acts as a tonic to the hair. It is not sticky or greasy, does not rub off and does not color the scalp. You can prepare it at home at very little expense.—Advt.
